Welcome to Ambit

The aim of **AMBIT Network** is to make high quality care more accessible for traumatized children and families in Minnesota and beyond.

VOICES: Hearing from African American families about Trauma

The video will discuss the needs of family members who are affected by traumatic events. The video is available at [www.ambitnetwork.org](#).

VOICES is a collaborative project between Ambit Network and the [Center for Advanced Studies in Child Welfare](#) at the University of Minnesota.

The information presented was gathered in group and individual interviews from families who experienced significant trauma in their lives. They have openly shared some of their stories about what helps and what hurts in the context of trauma-informed services.

We are grateful for their voices.
